

Historic retirement and nursing home Gampelen

www.fixit.ch

Object description #2326

Location	3236 Gampelen
Construction	17th century
Object type	Historic building
Design type	Energy-efficient renovation

A former 17th-century manor house in Gampelen, Bern, was renovated to improve its energy efficiency using Fixit 222 high-performance aerogel insulation plaster. The historic appearance of the current retirement home has been preserved, the energy consumption for heating the building has been reduced and the indoor climate has been improved.
