

Object description

#2354

Location	3600 Thun
Construction	1190
Object type	Hotel / Restaurant Historic building
Design type	Energy-efficient renovation

The historic 12th-century prison was converted into a restaurant and hotel over a period of two years. The main focus during the planning phase was on the listed façade. The exterior façade was supplemented with modern, cubic elements (bay windows) – these form a second visual level. The façade was energetically renovated in accordance with strict heritage conservation guidelines using Fixit 222 aerogel high-performance insulating plaster.

Products

Fixit 222 Aerogel High Performance Insulating Plaster
 Fixit 211 Roughcast mortar with adhesive agent
 Fixit 493 Mineral-based undercoat stabilizer
