

School building renovation Höri

www.fixit.ch

Object description #2403

Location	8181 Höri
Construction	1884
Object type	Public building
Design type	Energy-efficient renovation

The school building with its small bell tower, dating from 1884, has been extensively renovated. Fixit 222 Aerogel high-performance insulating plaster was used to reduce energy consumption and preserve the original appearance of the building.
