

Object description

#2501

Location	9000 St. Gallen
Construction	1946
Object type	Detached house
Design type	Energy-efficient renovation

The façade of the detached house, which dates from the 1940s, was recoated with Fixit 222 aerogel high-performance insulating plaster. To do this, the existing plaster only had to be removed from the reveals and lintels for insulation purposes. The concrete window sills were replaced with insulated Dosteba elements. This significantly reduced the heating requirements.
